

SINGLE DEPOSIT CONTAINERS

Medical Waste Containers

Locking Transport Lid
#601011

Single Deposit Containers (SDC)

Single Deposit Container is a versatile, "Point of Use", reusable medical waste container. Its high volume capacity for needles, lab waste, IV bags, and tubing keeps waste collection costs at a minimum.

- FDA (501K) Certification
- US DOT Markings: Compliant with HM-200 regulations and state environmental health agencies
- OSHA Markings: Compliant with OSHA Exposure Control Plan

Lab Lid
#601012

Restrictive Lid
#601013

Single Dolly allows for quick and easy single container mobility.
#60012 (39 gal)

Single Deposit Container Dimensions (Tapered to nest and stack)

Part#	Capacity	Length	Width	Height	Weight w/lid
6010	10 gal	18"	13"	16"	5.5 lbs
6017	17 gal	18"	13"	24"	7 lbs

Lids

Locking Transport Lid: Standard locking transport lid allows three full containers to be stacked.

Lab Lid: Two-piece lid allows easy waste disposal and is designed primarily for lab use.

Restrictive Lid: This "restrictive" lid discourages disposal of entrained, Tortuous Path non-regulated waste.
