IMPORTANT ANNOUNCEMENT

PANDEMIC PREVENTION STRATEGIES IN HOSPITALS

BONDTECH CORPORATION cares for the safety and preparedness of U.S. hospitals. We recommend all hospitals to prepare "financially and operationally" to contend with a potentially deadly outbreak of the Wuhan virus that is already killing people and sickened hundreds more in China and is spreading to Europe, North America and several Asian countries.

Just like any pandemic the need for an autoclave in every hospital is indisputable. We would like to offer to a small, affordable autoclave to properly treat and inactivate all resistant viruses, bacteria, fungi eliminating the chances to further spread of infection.

BTT FULL SERVICE CAPABILITIES

- Design, Installation and Commissioning
- After Install Service – Response time immediate

BONDTECH
CORPORATION

THE CENTER FOR DISEASE CONTROL AND PREVENTION

has announced that the 2019 Novel Coronavirus is in the United States. The first patient was found in Washington State after returning from Wuhan China. Let's not be passive and let's be prepared. Bontech is the leader in the manufacturing of autoclaves that deal with medical waste treatment and sterilization worldwide. During the Ebola crisis in 2014 to 2016 Bondtech's autoclaves were used to treat the medical waste from infected patients. Please call us if you have any questions.

Bondtech is ready to work with **you** regarding your hospital needs.

We also have an extensive line of Sharp containers.
